## Chinese Force Believed Enroute to Help Save Singapore

## HELSINKI PRESS SUGGESTS FINLAND READY TO QUIT FIGHTING

### Offensive Action in Pacific War Zone is Expected of Wavell

By the Associated Press  
Adolf Hitler, still steadily losing the Russian footholds for which he paid so dearly and harassed at the rear by new stirring of the conquered peoples, was confronted by a hint of Finnish defection.

Officially the Finns never professed partnership in the European "crusade"—Hitler's term for the war with Russia. They insisted that they were fighting only for recovery of territory vital to protection of their national life.

Now, according to the British news agency Reuters, the influential Helsinki newspaper Suomen Sosialidemokratia says the time "seems a suitable opportunity to break off military operations."

Sharing importance with the possibility of Finnish withdrawal from the war was the growing strain between Germany and the Vichy government and between them and the people of France. These tensions have become more and more apparent since the United States entered the war.

Some aspect of this complex of political stress appeared today to have resulted in the death of Yves Perringaux, chief secretary in Interior Minister Pierre Pucheu, one of the staunchest collaborators in Vichy. The secretary's battered body was found along a railway track, in occupied France, within 85 miles southeast of Paris.

The Red army's power drive was reported officially today to have carried through Belov, 100 miles west of the German high water mark on the southern flank of the Moscow arc.

The Germans were said to have lost 2,300 men in dead and wounded in fighting for Belov, which is (Turn to Page Nine)

### REDS TIGHTENING PINCH ACTION IN PHILIPPINES ON NAZI ARMIES REPORTED HEAVY LOSSES

By the Associated Press  
A Chinese expeditionary force, drawn from a reservoir of manpower that has been fighting a give and take war with the Japanese for four and one-half years, may be on its way today to the British-Malay front to help save Singapore.

British sources in London expressed belief veterans of Generalissimo Chiang Kai-Shek's army were being transferred to bolster the Malayan line until Britain and the United States could put reinforcements there.

It was noteworthy that the British censorship at Rangoon and London yesterday passed a dispatch saying that the gathering of Allied forces in Burma suggested that the United Nations command was mounting an offensive there.

The Japanese could be struck as easily overland from Burma at their flank and rear, as they could be by reinforcement of the front against them on the Malayan peninsula.

Unspecified numbers of Chinese troops are known to have massed in Burma. Their primary function, however, they appeared to be guarding the Burma road, Generalissimo Chiang's lifeline.

Now some sharp offensive action by the new supreme commander for the United Nations in the Pacific war zone, General Sir Archibald W. Wavell, seems to be in prospect.

The battle for Singapore had assumed by far the most strategic importance of any action in the Far East; the Philippine defense has become primarily a fight for time.

As such, the Philippine holding action seemed to be going pretty well. A morning communiqué of the war department at Washington said that General Douglas MacArthur's men had repulsed on Sunday a Japanese attack northwest of Manila, at least 700 Japanese killed.

"This," said the communiqué, "was one of the most serious reverses suffered by the Japanese invaders since the war began."

At the same time the garrison at Corregidor shot down four more Japanese bombers yesterday, bringing to 15 the number of enemy plane losses in four successive air assaults on that Gibraltar of Manila bay. The last raid, by 52 planes, lasted three hours.

#### PUSHBACK BRITISH IN MALAYA

Imperial Troops Forced To Fall Back From Positions Below Ipoh Under Fresh Enemy Hammer Blows, Fight Fiercely to Halt Tank-Led Invaders On a New Line Established In South

Disquieting News Is Heard From Borneo

Singapore, Jan. 5.—(A.)—British imperial troops in northwestern Malaya, forced to fall back from positions below Ipoh under fresh Japanese hammer blows, fought fiercely today to halt the tank-led invaders on a new line established farther south.

(In London a British military commentator said advices from Singapore disclosed further Japanese landings on the west coast of Malaya which he said constituted a "threat to our left flank."

(The landings, at the mouths of the Perak and Bernam rivers, apparently were made from small boats which the Japanese had picked up along the portion of the coast which they had over-run to the north, the commentator said.

(He declared there were no indications that the Japanese had been using large transports, which would have to come through the strait of Malacca between Malaya and Sumatra to reach their destination.)

Announcement the battalions had inched nearer to Singapore during the weekend coincided with disquieting news that the Japanese (Turn to Page Five)

### TRAIN CARRYING CARGO OF GOLD IN A COLLISION

Speeding Lehigh Valley Express Rams Abandoned Automobile and is Derailed During Blizzard Near Pittstown, Killing Passenger

THIRTEEN ARE INJURED

BY JACK SMITH  
Pittstown, Jan. 5.—(A.)—A speeding Lehigh Valley express train carrying a cargo of gold rammed an abandoned automobile and derailed during a blizzard here yesterday, killing one passenger and injuring 13 others.

Seven coaches and the locomotive of the 14-car Buffalo-to-New York "night flyer" splattered zig-zag on the Susquehanna river bank, 16 miles west of Wilkes-Barre, trapping many of the 250 passengers for more than an hour. Trainmen freed them with crowbars and sledge hammers.

Federal Bureau of Investigation agents and postal inspectors, who rushed here from Philadelphia, discounted the theory the train was wrecked in a plot to steal the shipment of \$250,000 in gold. Destination of the bullion was not disclosed.

### CHUNGKING HAS A CELEBRATION OVER VICTORY

BY SPENCER MOOSA  
Chungking, Jan. 5.—(A.)—Firecrackers were discharged and gongs sounded triumphantly in the streets of Chungking today to celebrate what the Chinese proclaimed a great victory over the Japanese at Changsha.

The Chinese declared that a junction had been effected by the Chinese Changsha garrison and the troops sent to its relief, and that a Chinese cordon had been drawn about the Japanese force which had suffered 52,000 casualties in three days in a "catastrophic debacle."

The Japanese, dependent upon air-borne supplies, are continuing attempts to break out of the trap, Chinese said.

A group of newspaper correspondents and foreign embassy attaches, including Lieut. Col. David D. Barrett, assistant U. S. military attaché, left for the Hunan front to view the scene of the Changsha battle.

The Chinese high command declared 30,000 Japanese were killed or wounded yesterday in fighting around the rich silk and rice center.

Several high Japanese officers were reported killed in slaughter which Chinese said was believed to have no parallel in the four and one-half years of the China war.

The Chinese said their reinforcements came up yesterday as the encircled Japanese continued to pound at the city. The reinforcements occupied three Japanese outposts and threatened the enemies' left flank.

### COMPENSATION LAW IS UPHELD

Washington, Jan. 5.—(A.)—The supreme court affirmed today a decision upholding the constitutionality of Pennsylvania's unemployment compensation law.

The legislation had been challenged by the Perkins Battery Company of York, Pa.

Fred C. Perkins, owner of the firm, appealed from the Pennsylvania supreme court, contending the law, which requires payment of a tax of 2.7 per cent on the earnings of employees, violated the commerce clause of the federal constitution. He said further that this business is interstate commerce and that the tax amounted to a levy on the privilege of engaging in interstate commerce in Pennsylvania.

State authorities contended the law made no attempt to regulate interstate commerce or impose a burden upon it.

In its action today, the supreme court granted a motion by Pennsylvania to affirm the state supreme court ruling. There was no written opinion.

### CROWD ON HAND FOR CEREMONY

In Addition to President Judge, District Attorney, Register and Recorder, and Coroner, Oaths Are Also Administered By Prothonotary to Deputies Named for Seven Other Positions

BUT ONE CHANGE MADE BY INCOMING JURIST

At a session of court held this morning, Warren county officers who were elected last November were sworn in and officially assumed their duties for their new terms.

Heading the list of those receiving the oath of office before a crowd that filled the small courtroom was Allison D. Wade, who began his ten-year term as president judge of the 37th judicial district comprising Warren and Forest counties, succeeding Judge D. U. Arnd, who has held the position for the past twenty years.

Other officers sworn in included J. H. Goldstein, district attorney; O. P. Leper, register and recorder, and Ed C. Lowrey, coroner, all of whom were re-elected to office.

Also receiving the oath were Miss Maye A. Wells, first deputy register and recorder, who was appointed by Mr. Leper, and Benice R. Seavy, secretary to Judge Wade for several years, who was appointed court stenographer.

While the announcement was not made in court, it was revealed by the county commission during the morning that Alexander G. Flick, Jr., has been appointed (Turn to Page Nine)

### THE SETUP IS PERFECT

Washington, Jan. 5.—(A.)—The outline of a proposed automobile rationing plan expected to be even more drastic than the tire rationing program was unfolded today to 200 automobile manufacturers and union chiefs.

The rationing plan, expected to be made public around January 13, was presented by Price Administrator Leon Henderson, at the start of a session in which wholesale conversion of the four billion dollar automotive industry into war production will be drafted.

Harrisburg, Jan. 5.—(A.)—Start of restricted tire and tube sales today under the government's first attempt at commodity rationing brought a plea from the state that motorists be patient with efforts of hastily organized forces charged with carrying out the program.

"It might take a couple of days to get the links worked out since we are just getting established," declared Commonwealth Rationing Director T. E. Transeau in urging co-operation, "but our setup is perfected and ready to go."

A similar appeal came from Supervisory Field Agent David W. Robinson of the Office of Price Administration who warned that heavy restrictions on tire and tube purchases made it possible to meet (Turn to Page Five)

### INDUCTIONS ARE HELD TODAY IN MANY COUNTIES

Harrisburg, Jan. 5.—(A.)—Hundreds of new municipal officers in Pennsylvania took office today, beginning terms won in the elections last November.

Terms of mayors, judges and other local officials started January 1 but the actual inductions in many cases were held off until today.

Beginning new terms were 39 common pleas court judges, six orphans court judges, one county court jurist in Allegheny and one municipal court judge in Philadelphia. Also inducted were mayors of 23 cities.

In Pittsburgh, Mayor Cornelius D. Scully simply returned to the desk he had occupied for four years but in Scranton there was a new chief executive, Howard J. Snowden.

McKeesport had a new mayor take office for the first time in many years, Frank Buchanan succeeding the 74-year-old George Lysle who had served seven consecutive terms.

Some officials switched jobs as a result of successful campaigns last fall. L. Kenneth Harkins, a member of the house, was elected to the Allegheny county court. Andrew T. Park, district attorney, was elevated to the common pleas bench in that county.

J. Harold Flannery, congressman from Luzerne county, took office as judge of the common pleas court and Robert E. Woodside, Jr., minority house floor leader in the legislature, was inducted into the Dauphin county bench.

### ENEMY U-BOATS VICHY LEADER IS REPORTED BUSY BELIEVED SLAIN

Berlin, Jan. 5.—(Official broadcast recorded by A.)—German submarines operating in the Atlantic and Arctic oceans and in the Mediterranean were credited by German high command today with sinking four ships, including a 20,000-ton tanker, and with damaging two other vessels.

The announcement disclosed no details of the reported sinkings.

German air raiders successfully attacked ports and radio stations in the Faeroes and Shetland islands last night and also blasted at industrial installations on the British east coast, the high command also said.

The high command said British bombers again had raided north German coastal areas during the night, causing some casualties, but described the attacks as "unsuccessful."

The high command also announced that Nazi bombers, continuing their assaults on the Crimean port of Koodosya, had set fire to five large ships and a destroyer and damaged another big merchant vessel in the harbor.

Vichy, Unoccupied France, Jan. 5.—(A.)—The battered body of Yves Perringaux, Chief Secretary to Interior Minister Pierre Pucheu, has been found along the railroad tracks between Paris and Troyes, in German-occupied France, it was announced today.

(The Berlin radio at first broadcast that both Perringaux and Pucheu had been found dead, presumably the victims of assassins, but later changed its story to say that only Perringaux was killed.

(It gave no explanation for withdrawing the original story although it previously had announced that an investigation into what was said then to be two deaths had been started.

(Whether Perringaux was traveling with Pucheu was not disclosed.

Perringaux's body was said to have been found in a mangled condition near the station of Flamboin-Gouaux, about two thirds of the way between Paris and Troyes. He had taken a train in Paris last night en route to Belfort, in Alsace.

### Annual Message on State of Nation to Be Given in Person

Washington, Jan. 5.—(A.)—President Roosevelt will deliver to congress in person tomorrow (at 12:30 p. m., EST.) his annual message on the state of the Union.

He will address the senate and house, assembled in joint session in the house chamber, on the basis of plans worked out today with congressional leaders. They conferred with the chief executive shortly before the 77th congress began its second session amid reports that Mr. Roosevelt probably would request between \$15,000,000,000 and \$18,000,000,000 in special appropriations for the army and navy.

The budget message, which will disclose the accuracy of these reports and the blueprint for vast government war expenditures in the year beginning next July 1, will be submitted to the legislators on Wednesday.

Arrangements for the chief executive to speak in person were made at a White House conference attended by Vice President Wallace, Speaker Rayburn, House Majority Leader McCormack and Senate Majority Leader Barkley. Early today reporters told the president had been advised the senate would take up a price control bill on Wednesday, and that committees in both senate and house would consider promptly legislation to let the president establish daylight saving time.

The daylight savings bills now pending before committees, Barkley said, contemplate allowing Mr. Roosevelt to order clocks moved forward or backward a maximum of two hours.

If the fifteen to eighteen billions of dollars in special funds for the army and navy are requested in the budget message, they would represent a start toward the president's announced goal of stepping up war spending to a \$50,000,000,000-a-year rate by June 30, 1943.

The chief executive spent a good part of his weekend drafting the address, which may disclose some further details on the campaign the grand alliance of nations has planned to crush the Axis.

Speaking of the anticipated request for military funds, informed legislators said that last-minute conferences might boost the total even beyond \$18,000,000,000. They pointed out that additional appropriations would be requested later as production of equipment was speeded up. Mr. Roosevelt's plan of pouring half of the national income into war expenditures would entail monthly outlays reaching \$4,000,000,000 by June 30, 1943.

Most legislators believed that war-time secrecy would be clamped down upon the military budget, resulting in requests for lump sum appropriations in general categories rather than the usual specific allocation for planes, guns, tanks and other items.

There was considerable speculation as to what the non-war section of the budget would show. Some legislators expressed hope that it would provide for a \$1,500,000,000 cut in the amount of money appropriated last year for the operation of government departments and non-defense agencies.

With congress beginning its third year of almost continuous meetings, Senator Barkley of Kentucky (Turn to Page Nine)

### PROCLAMATION FIXES DATE FOR REGISTRATION

President Roosevelt Sets February 16 for Signing Up All Male Citizens Between 20 and 44 Not Previously Affected

Washington, Jan. 5.—(A.)—President Roosevelt today set February 16 for registration of all male citizens of the nation between the ages of 20 and 44 who have not registered previously.

The date was fixed in a proclamation, it made no mention of registration of men from 45 through 64, who are to be registered later on but who will be exempt from service with the armed forces under present legislation.

In his proclamation, the chief executive noted that this and other registrations under the selective service act "will be required to insure victory, final and complete, over the enemies of the United States."

The registration will apply to all male citizens and some non-citizens born on or after February 17, 1897, and on or before December 31, 1921. It is to take place, not only in the United States, but also in Alaska, Hawaii and Puerto Rico, between the hours of 7 a. m. and 9 p. m.

Provisions were made for registration before February 16 and after that date in exceptional cases through arrangements with selective service officials.

The president, for the sake of full cooperation with the selective service program, urged all employers and all government agencies to give workers sufficient time off to register.

Recent legislation has made men (Turn to Page Five)

# WE-ALL

The Japanese attack on the United States instantly changed our trend of thought in this country.

Before that attack some of us thought in terms of "I", others in terms of "we". Neither of those terms expresses our feelings today.

"I" represents only one person.

"We" may mean only two or a few persons.

Our slogan now is WE-ALL, which means every loyal individual in the United States.

We are facing a long, hard job, but when the United States decides to fight for a cause, it is in terms of WE-ALL, and nothing can or will stop us.

President Roosevelt, our Commander-in-Chief, can be certain that WE-ALL are back of him, determined to protect our country, our form of government, and the freedoms which we cherish.

### GEORGE STEWART

George Stewart, veteran employee of the National Transit Company, passed away suddenly at his home in Oil City Sunday morning. Death was due to a heart attack. Among survivors is a sister, Mrs. Frances I. Trax, 1808 Pennsylvania avenue, east, this city. Mr. Stewart was born in Oil City, March 30, 1879, and had spent his entire life there. He was well known among pipeline men throughout this section, having been employed by the National Transit company for more than 30 years.

Besides his wife and the sister here he is survived by two children, Mrs. Katherine Say and Edward Stewart, Oil City; a brother, Harry Stewart, also of Oil City, and three grandchildren. Funeral services in his memory park

## WARREN COUNTY HENS HELP HIKE FARMER INCOME

Hens of Warren county contributed materially last year in assisting farm income to the highest level since 1929. Estimates indicate that the farm gross income in 1941 will exceed eleven billion dollars for the first time in 12 years, two billion higher than in 1940.

Heavy production coupled with a favorable market means that income from eggs should exceed \$600,000,000. The nation's hens were expected to produce forty billion eggs last year, on the basis of production figures assembled at the Chicago Mercantile Exchange.

Defense buying and sales promotion activities were prime reasons for the higher price. Chain stores, which last year purchased more than a third of the eggs produced in Pennsylvania, report consumer demand holding rather well, aided by higher national income and mass distribution methods which reduce the spread between producer and consumer prices.

The favorable price situation is illustrated by the fact that, as an average last season, only 584 dozen eggs have been required to buy 100 pounds of poultry ration, compared with 751 dozen in 1940.

The equivalent of more than 200,000,000 dozen eggs in shell, frozen or powdered form has been purchased since the lend-lease bill passed.

Quality campaigns, resulting in a better grade of eggs in Pennsylvania, have brought about increased purchasing by the mass distributors. One chain, the A & P, bought 6,173,000 dozen Pennsylvania eggs in 1940.

Production in Pennsylvania was expected to exceed 177,310,000 in 1941, with Warren county contributing more than 1,140,000 of this total.

### JOBS FOR ALL

The following statement from Congressman Benjamin Jarrett giving his views on the present war situation, is a document that should add encouragement and inspiration to all who will read it, regardless of party affiliation. We are pleased to print it in this column for the benefit of his constituents served by the Times-Mirror:

As a member of the Congress which recently declared war upon Japan and Germany after they declared war upon us, I should like to submit to the constituency a few thoughts concerning our actions in the days that are to follow.

The great test of American strength and vitality is at hand. Are we strong and noble enough as a free and determined people to withstand the onslaughts from without and the trouble that may break from within? It is to be hoped that we are. We must all of us, forsaking political parties, national ties or racial backgrounds, gird ourselves for the task that lies ahead. We shall be separated from our sons, daughters, brothers, sisters and husbands or parents. The treacherous attack upon Pearl Harbor has thrown us into a temporary confusion and a bit of emotional turmoil. We shall feel prone to criticize. We shall look for victims to heap our criticism upon. We shall seek out persons whom we feel responsible for this failure or that one, but in this connection we should be forever cautious. It should be left to the President, the Cabinet, the Army and Navy officers and the Congressional committees to handle the problems of organization or reorganization of our armed forces and our coordinated government agencies charged with the furtherance of our national defense. Labor and capital must adopt an immediate truce for the duration, each believing in the complete Americanism of the other and the genuine spirit of fair play that has always characterized American activities.

The citizenry owes to the constituted leaders of our nation and state, an immediate and certain loyalty which will insure a lasting unity of action. There must be no blocking of our progress in the work at hand. We must stand squarely upon our feet and, whether old or young, accept our full measure of responsibility if democratic ideals and principals are to survive in the world and if liberty and tolerance are to remain as man's eternal birthright.

We will be called upon to face new and increased taxes. We will be called upon to forgo this pleasure or that privilege. We must be ready to sacrifice our personal possessions if needs be. We can not be penny-wise when mad men are loose in the world. We must be prepared to meet the problems of increased costs and rationing with stark realism and a broad courage. We will be faced with the problems of adjusting our relations with persons born in countries with which we now find ourselves at war. As Americans, free to do our thinking, our own loving and our own hating, we must be broad enough to realize that there exists among us thousands of persons who came from the countries with which we are at war, and that these people have given sons who died in the last war we fought and others who are now members of our armed forces. These people are not to be judged now by any sympathy they may have expressed for one side or the other of an essentially European war before we were attacked and became active participants ourselves. These people, when naturalized, are as much citizens of this country as any of us. We must not allow our emotions ever to blind or obscure our more intelligent vision.

Then there are the problems growing out of the questions arising about aliens. Here in our country it is to be hoped that we Americans will be sane enough to have any problem concerning these people handled by the proper Federal agencies charged with the duty of alien administration. Self help or organized assaults will only bring retaliation against our nationals still present in other nations.

We must all of us take our place along the line, from the coal mine or pit to the finished battleships or tanks, from the oil well, the factory, the farm, the chains of transportation and all of the coordinated parts of our national energy to the finished armament and the needs for national defense.

We must put aside political differences, national back-grounds, personal likes and dislikes, and, oblivious to human comfort, join hand in hand, shoulder to shoulder, in the march to military success. We must be united in great strength that is ever American, imbued with an absorbing will to win, confident always that a wise and understanding Almighty God will give to America and the American people, the privilege of leading the down-trodden and abused people of the whole world to a new and lasting peace based on human equity and divine ordinance.

It will be a long time, if ever, before this country will witness a ceremony similar to that which took place at the court house this morning which marked the retirement of Judge D. U. Arird, after twenty years on the bench, and the elevation of Judge Allison D. Wade. Our felicitations to the newly-inducted officers and best wishes to Judge Arird for happiness and comfort in the future.

That snowfall Saturday night gave many residents an unexpected early morning workout Sunday morning.

How's your collection of calendars coming?

Put out some feed for our feathered friends!

## MAN ABOUT MANHATTAN

By ROBBIN COONS

**H**OLLYWOOD — There's been no blackout on movie gags and humor. You've heard the one about Peter Lorre, peacefully playing his phonograph one evening and hearing no sirens, answering his doorbell to be warned of a blackout—by a neighbor's Japanese houseboy. . . .

And perhaps you've heard of Snowflake's personal blackout procedure: "I just shuts my mouth." . . .

In "Out of the Flying Pan" Eddie Bracken plays a struggling young actor and in one sequence he impersonates Otello—a characterization involving considerable make-up including dark-brown greasepaint. A chorine from another set watched the make-up going on and asked "What goes?" Eddie, under the ministrations, couldn't answer but William Holden pinch-hit: "Mr. Bracken is just going into his personal blackout." . . .

DOUGLAS FOWLEY, the movie toughie, was on the set of "I Live on Danger" writing checks for new subscriptions to a dozen daily newspapers. "Do you need 12 daily papers to keep tab on the war?" asked Bill Pine, the producer.

"No," Doug confessed candidly. "It's not the war, especially. It's the funny papers."

For the same picture Pine and Bill Thomas, his co-producer, wanted some horse-racing photographs for use in a restaurant scene. Star Richard Arlen telephoned his friend Bing Crosby and asked to borrow some from his personal collection. "Sure," said Bing. "It's about time those nags were of some use." . . .

SYLVAN SIMON, directing "Rio Rita," tells the one about the little Kansas town which underwent an extended drought a few years ago. The mayor heard that the local Negro parson was very effective in praying for miracles, and so, with the community assembled in the town square, the minister raised his arms and prayed for rain. It began to sprinkle, then to pour, and it didn't stop. It rained and rained, and the fields grew green with crops and it still didn't stop. The streams flooded, the crops washed away, houses floated down the streets. The mayor called on the parson again. Again in the town square, the minister raised his arms and prayed. "Six months ago, Lord," he said, "I prayed for rain and it came—but, after all, this is ridiculous!" . . .

THE camera crew on "This Gun for Hire" was about to light up for a close-up of Veronica Lake, the girl with the hair. There was a call for Veronica's stand-in.

"Why bother the stand-in?" grinned Robert Preston, co-star. "Just use the furniture mop over there!" . . .

William Demarest, who once played a "collo" in vaudeville, came to play in a violin on the set of "The Palm Beach Story" and began to play it "collo-style." "Why don't you tune it?" someone shouted.

"Oh, no," said Bill. "Oh, no. Anyone can play an instrument in tune. But this way, it's an art!" . . .

## STORIES IN STAMPS

### Heroic Doctors Made Panama Canal Possible

**T**HE lifeline of the United States, the Panama Canal, now so vital to the defense of America, was made possible through the work of doctors who risked their lives to conquer yellow fever.

The stamp above, issued by Cuba in 1933, commemorates the centenary of the birth of Dr. Carlos F. Finlay, discoverer of the fact that mosquitoes carry yellow fever.

In 1900, American soldiers in the army of occupation in Cuba, were dying by thousands of a disease that baffled medical science. The same disease was prevalent during the hot months in the Panamanian isthmus.

A commission named to study the disease included Maj. Walter Reed, Dr. James Carroll, Dr. Jesse Lazear, and Dr. Aristides Agazamonte. Reed planned and carried out controlled experiments which proved conclusively Dr. Finlay's theory, originally expounded in 1881.

Dr. Carroll, Dr. Lazear and two army privates, John Moran and John Kissinger, allowed themselves to be inoculated. Dr. Lazear died but the others recovered and soon a plan for mosquito control virtually wiped out the disease.

## A WASHINGTON DAYBOOK

(This is the first of two articles on what World War II means to the American motorist.)

By JACK STINNETT

**WASHINGTON**—The "horse and buggy days" are coming back.

For the first time since the second World War began, Mr. Average American is going to get a jolt where it hurts—in the neck that bends over the steering wheel.

If "the duration" lasts as long as some experts (including Mr. Winston Churchill, who says we'll be ready to take the initiative in 1943) predict, motor traffic will dwindle to a trickle and that story about the man who hadn't seen a horse in 20 years will be as outdated as a bird cage bustle, red flannel underwear and a two-rat hair-do.

THERE is an average of one automobile to every family in the United States. According to the American Automobile Association, three-fourths of all the driving done in these 30-odd million vehicles is necessary to maintenance of the home, office or factory. If driving is drastically curtailed—and it's going to be unless present orders are rescinded—that means that the United States is in for one of the greatest domestic upheavals it has known.

Modern living is geared to the rapid transportation of the automobile and delivery truck. Suburbanites, farmers, factory workers who live miles from their places of business, and scores of other groups will have to rearrange their lives completely if they are to meet the emergency that will be caused by a vast lack in private transport.

The first blow to be felt and pretty quickly will be the result of the ban on tire sales and subsequently the rationing on such a restricted basis that only cars, trucks and buses deemed vitally necessary to the health and safety of the nation will be able to get rubber on which to roll.

The second curtailment will NOT be felt until later, but if this war does drag out for a couple of years or more, it will put

the kiss of death on motor transportation as we think of it today. That is the slash and possibly the complete black-out of new car production. The number of cars coming off the assembly lines has been declining steadily since August. The January total is to be about 25 per cent of normal output—only one new car for each four buyers. Later quotas are yet to be set, but the AAA and other organizations already are warning their members that a complete halt in new car production is NOT to be unexpected.

However, because of the reserve of used cars and because many a family bus could be nursed along for almost any conceivable "duration" this possibility is not considered as seriously as the strict rationing order on tires.

Tire stocks consist of between seven and eight million new tires. On a basis of annual production of 48,000,000 in this country, that's about two months' supply. The stock of retreads and rebuilt tires is an unknown quantity, but government guessers think it can't possibly be greater than the entire stock pile. It is thought certain here that when rationing really gets under way, the retreads and the use of rubber for retreading also will come under the government bans.

This doesn't mean that under rationing anyone can get tires in the next few months. This possible four months' supply may have to do for a year or more. John Q. Public may learn what it means to do without his full quota of transportation even before he feels the pinch of that staggering new income tax. And that is hardly more than weeks away.

(Tomorrow: Federal tax revenues get a flat tire too.)

**PENN'A FOREST CAMP BULLETIN NOW AVAILABLE**

Harrisburg, January 5—A new publication, "State Forest Camp Sites" has recently been issued by the Department of Forests and Waters. This bulletin contains detailed information as to how camp sites may be obtained, size of camp site areas, rentals, regulations, building requirements, cabin specifications, and information with respect to temporary camping permits on the State Forests.

Leased camp sites make it possible for the citizens of Pennsylvania to enjoy periodically the pursuit of their favorite recreational activities at a moderate cost. To the fisherman and hunter, they present an opportunity for the enjoyment of their favorite sport without the fear of trespassing on private lands.

There are many State Forest recreational areas which have been set aside for recreation because of certain unusual scenic or topographic features. Some of these offer excellent fishing, boating, bathing and canoeing. Good tenting areas have been developed at the more popular parks. The thousands of miles of well marked State Forest roads and trails afford splendid skiing and many of the lakes and dams are becoming increasingly popular for ice skating.

Winter opportunities for enjoying the forests are just as great as in the summer. There is a delicacy and grandeur to winter landscapes which far transcends the luxuriance of summer. When the snow covers the hills and valleys with a carpet of white, nature has made her supreme effort to portray the beautiful.

only one out of 20 normal demands for replacements.  
Passenger car users, and Robinson, will be doing a service to their local rationing boards and to the successful administration of the program if they will consider that no new tires or tubes are available for their use at this time.

The OPA official declared Pennsylvania leads the nation in establishment of essential machinery for rationing to conserve the vital rubber supply but added difficulties undoubtedly would result in getting restricted sales under way. Effectiveness of the program, he asserted, will depend upon each local rationing board doing a good job in its own community.  
Pennsylvania has set up 422 rationing boards throughout the state along the same lines as the selective service system. These boards must hold January sales in the commonwealth to the federal allotment of 6,207 tires for passenger cars and light delivery trucks and 5,195 tubes with 14,647 tires for large trucks and buses and 12,345 tubes.

Each county has been given its quota under the state allotment. To the various boards have gone more than 50,000 application blanks and 40,000 certificates for purchases. The 7,500 stations which semi-annually inspect the state's 2,500,000 registered motor vehicles will be used for receiving applications.

Robinson, who will supervise the rationing program for the OPA in Pennsylvania and Delaware, advised that commercial vehicle owners and operators who feel they qualify for purchases "should analyze their positions carefully and make certain that they fall within an eligible class before making out an application form."

Among motor vehicle users who may obtain certificates for purchases are physicians, visiting nurses, veterinarians, ambulances, buses hauling more than 10 persons, those engaged in health and safety, those engaged in supplying fuel and ice, those in road construction and maintenance, those hauling food produce—not retailers—and a few other limited categories.

Since then they have captured Kuching, capital of Sarawak.  
Further Japanese activity off the west coast of Malaya, where the invaders previously had attempted to land behind the British lines, was reported during the week end. British planes heavily attacked Japanese boats along the coast, a communiqué said, but poor visibility made the results uncertain.

**SNOW FUN**

Yesterday afternoon's first Sunday hike for 1942 brought out thirty-eight persons for the Allegheny Hiking Club's journey, including eleven who joined the group for the first time.  
Hiking from the starting point at General Joseph H. Warren Park the party walked up cemetery hill on the south side beyond the disposal plant, turning left and going up over the ridge and down into the Ott Run valley, circling around among the springs forming the headwaters of the run and over the hill to the Reg farm, then following the dirt road back to town.  
The freshly fallen snow on the woods provided many beautiful scenes, and many hikers thought this the most delightful hike of the season. With numerous stops to enjoy the hillside views yesterday's hike consumed about three hours, although the distance was just a little over six miles.

State Police Sergeant J. E. Hess said the driver of the automobile Henry Meinfield, 38, of Scranton, told him his car had stalled on the crossing and that he had walked to a nearby factory to find help. An employee at the factory knew the train was overdue, said Hess, adding:  
"He telephoned a dispatcher up the track but the train already had passed. Another employee ran up the track waving a flashlight but visibility was poor and the train rounded a sharp curve and hit the car broadside."

Meinfield was not held. A foot of snow covering roads in the area made it difficult for doctors and nurses to reach the wreckage.  
The dead man was identified from a C. C. C. discharge as Joseph Laycock, about 40, of Chicago. Another employee, badly injured, was seriously injured was Lieut. Harry A. Hawk, 28, of Sayre, Pa., stationed at Camp Croft, S. C. His right leg was crushed and later was amputated at Pittston hospital.

Lieut. Hawk saved himself from "certain death" as he lay in the wreckage, Miss Esther Tinsley, head nurse at Pittston hospital, said. He made a tourniquet from his handkerchief and penknife and stopped the flow of blood to his leg.  
Only one trainman, Baggage-master James H. Horton, 44, of R. G. D. 1, Nichols, N. Y., was hurt. He suffered fractured ribs and bruises.

The men were arrested Saturday by Police Chief Sanford Stever, of Sheffield, and Deputy Sheriff L. E. Linder.  
The steam engine had been broken up into small pieces and sold to a local junk dealer. Total weight of the goods stolen was 2,445 pounds, according to Linder.

Later will come enrollment of men between 18 and 20 and 44 and 64. Many of the men in these groups, members of congress said, could be trained for jobs as fire wardens, air raid spotters and emergency policemen. A new questionnaire has been prepared to aid the local boards in determining the qualifications of registrants.

Harrisburg, Jan. 5—(A)—Pennsylvania will register approximately 840,000 men between 20 and 44 years on February 16, for military service, selective service headquarters said today after President Roosevelt fixed the registration day for that group.  
The Keystone State now has 1,315,000 registered between 21 and 35 years. Officials said there were approximately 90,000 men between 20 and 21 years and 750,000 from 36 to 44.

How the additional men are to be registered has yet to be announced. Authorities said it was probable that the local draft boards would handle the job.

**What Does Your NEIGHBOR Know About DIAGNOSIS?**  
Taking the advice of friends or neighbors, about what to do when you are sick, is precarious business. What does your neighbor know about the condition of your blood, kidneys or heart as related to your illness? What can he know of the difference between appendicitis and the stomach-ache? Can that neighbor listen to chest sounds and detect the presence of pus or moisture, or can he interpret the exact meaning of your blood chemistry?  
Duodenal ulcer is not a thing to dose with neighbor's nostrums: tonsillitis may lead to kidney or heart impairment; pneumonia may follow influenza. If your neighbor knew which illness would be free of complications or which need close scientific watching he might safely "advise."  
You would not trust your watch to a garage mechanic—neither should you trust your bodily health to any but the trained eyes, ears, hands and brain of your doctor.

NO TIME FOR LOVE

YESTERDAY: Lavinia is only twenty-four, but she has decided to get married. Partly this is because she thinks her Aunt Dorcas wants her to, and partly it is because she wants a career as a buyer in a big department store—and has been proposed to by a man who is a good deal older than she is. So she says she will marry him to take her out Sunday. But to the Bouldin Museum!

Chapter Three

**Love In The Automat**

ZOE was right. Peter Raymond did ask her to marry him. It was while they were dancing in a place just off Broadway. And now it was much later, and they were having some food in the Automat on Fifty-second Street. Zoe was eating chocolate pie and drinking tea, and Peter was drinking coffee and eating a tuna fish sandwich.

"Oh, boy," Pete said softly, reaching for Zoe's hand. "Engaged!"

"Yes," said Zoe, smiling at him. "Engaged in the Automat! It's wonderful, darling."

"It seems like a sort of dream," said Pete, going back to his sandwich. "Being engaged to you, I mean. There were so many fellows rushing you around I said—"

"But maybe we ought to face cold facts right now, and thresh them all out," said Peter. "So there's nothing to be threshed out. We get married in a week—and in the Little Church Around the Corner—just like you said you wanted."

"Pete—darling, I do hope it turns out all right."

"Why shouldn't it?" Pete said. "And here—look here, Zoe, have you been listening to Lavinia again?"

"She did sort of—of—warn me," Zoe confessed.

"I thought so!" Pete was annoyed. "Now there's an example of what going into the business world does to a girl. I'll be glad when you get away from the Lavinia Prentiss influence."

"You mustn't be too hard on her, Peter," Zoe said. "She's really my best friend, even if we disagree now and then. She paused, gazing into the distance. She was seeing the Methodist Orphanage down home—the kindly but not overly cheerful place where she and Lavinia had spent the days of their childhood. "When two girls have been through what Lavinia and I have, they stick—no matter how much they get on each other's nerves at times."

"Then you admit that Lavinia gets on your nerves?" said Pete.

"Yes. And I get on hers, too," Zoe smiled. "She thinks I'm crazy."

"Ermine in the Automat," she giggled.

OPENINGS ARE ANNOUNCED FOR C. P. T. TRAINING

Openings in the current ground school of the local Civilian Pilot Training program of the Civil Aeronautics Administration for seven or eight additional young men between the ages of 19 and 26 were announced today.

Although the class has been started, it was stated this morning by H. B. Stevens, of Pittsburgh, C. A. A. ground school supervisor, that at least 35 men must be obtained in order to continue the class.

The second meeting of the group will be held this evening at seven o'clock at the Jefferson school and any youths interested in the training may report at that time. Registrations also will be taken at the Warren Airport.

V. S. King, manager of the local airport, said today that he believes there are many young men in this section who are eligible to the training and he urged that those interested make application at once.

HEAVIEST FALL OF SNOW HERE OVER WEEK-END

Warren experienced its heaviest snow fall of the present winter over the weekend with a total of six inches falling from about midnight Saturday until this morning. Five inches of the beautiful covered the ground at seven o'clock yesterday morning, according to Harold Johnson, local weather observer. During Sunday about one inch is reported to have fallen.

At seven o'clock this morning snow covered the earth to a depth of five inches, low temperatures retaining most of the snow following the storm.

Motorists out late Saturday evening and Sunday morning found driving extremely hazardous with the fall limiting vision to a short distance. Although snow plows and snow crews were out Sunday morning, highways were slippery enough to warrant chains on most vehicles. No serious accidents were reported to police, however.

The heavy fall brought the first real taste of winter sports to many in the community. Coasting and skiing was observed on most streets in the borough yesterday. Hill-sides surrounding the borough drew their share of skiing and tobogganing enthusiasts.

Officials of the Warren Ski Club report that about 25 skiers used the club's slope yesterday, although conditions were not as favorable for the sport as would be desirable. Members of the club are hoping for more snow in order to get what is already on the ground. Conditions were excellent for tobogganing on the slope and many were in evidence.

There will be no night skiing this week, it is stated, but if more snow falls during the week conditions should be good for next weekend.

HUSBAND, WIFE UPSET OLD RULE. WIN PAIR EVENT

America's Card Authority

The national mixed pair championship at Richmond was one of the greatest events in the history of the game. It was won by Mr. and Mrs. Jeff Glick, of Miami, Fla., disproving the fact that husbands and wives cannot play bridge together. The runners-up were Harry Feinberg, of Cleveland, and Miss Ann Bryant of Kansas City.

Without a doubt, the greatest mixed pair combinations ever assembled participated in the event, and during the three sessions of play it was a toss-up. The Glicks thought they were in a bad position, as they were 28th at the end of the two qualifying rounds but they passed the 27 pairs ahead of them in the finals, to go on to victory.

Mr. and Mrs. Glick were married only three years ago. Both Jeff and I were formerly Clevelanders, and I have always considered him one of the finest card players in the country. He knows how to "lay those tickets down" in their proper rotation. Here is an example of his brilliant play, taken from the national mixed pairs in which he was the victor.

Glick, sitting South, ruffed the opening lead. He led a low trump and put up the king when West showed out. A low trump lead from dummy was won by the jack.

Next the king of clubs forced the ace, and East exited with the other club. Glick cashed the ace of trumps, then continued leading clubs.

East was helpless. He could ruff a club with the high trump, but then his forced lead away from one of his kings would give declarer a trick with the queen, which would assure the contract.

"Oh, women in the business world give me a pain!" said Zoe. "Most of them ought to be fired and made to marry and run homes."

"You really mean that?"

"I certainly do. And I'm jinked to death to be getting out of business. Pete, I'm going to make a good wife, or know the reason why? Zoe suddenly remembered all that Lavinia had said about raises, advancements, babies, illness, and apartments in the Bronx. She went on, "you do think you love me enough to stand sel-backs? I mean struggles—and maybe being hard up at times."

"You bet I do," said Pete with emphasis. "Gosh honey, don't start crossing bridges."

To speed this recruiting program the Commission stated that the Federal Government is bearing all the costs of transportation of workers who are accepted for appointment. Maximum salaries are offered for each position, and compensation begins on the date of sailing from the West Coast for Honolulu. Transportation costs will be paid to the workers from their homes to California including Pullman fare and subsistence allowances at the rate of four dollars a day.

Concerning overtime, about 75% of the employees are working in excess of the standard 40 hour week.

A cantonment, located near the Navy Yard and operated on a cost basis, offers accommodations to employees at reasonable rates. Rental and living costs in Honolulu are rather high. Cafeteria service, operated by a concessionaire, is provided and prices for food at the cafeteria are regulated by the commandant in order to provide food and service at a fair price.

The Commission announced that complete information may be secured from the Office of the Manager, Third U. S. Civil Service District, Room 105, U. S. Customhouse, Philadelphia, Pennsylvania.

# WARREN, SHEFFIELD SET FOR NORTHERN LEAGUE OPENER

## Teams Are Rated About Even For Engagement Here; Blue Loses As Team and White Has Height Edge Tops All-Stars

With nearly four weeks of basketball behind them, the Warren High school Dragons are all ready for tomorrow night's Northern League opener here against Coach Joe Massa's Sheffield Wolves, which will hold the spotlight among the four games to be played in the circuit.

A capacity crowd is expected to jam Beatty gym to watch the fracas, which, according to pre-game information, shapes up to being a ding-dong affair with no favoritism being possibly named.

The Dragons, in six games to date, have won three and lost the rest, while Sheffield, with four games in the books, has won three and lost one.

Warren's passers started out well against Oil City, in a hard opener which they might have won had they gotten off to a faster start. At Corry they went to pieces in dropping a one-point decision to the Beavers, then topped their first decision of the season when they journeyed to Titusville, returning home, James-town bumped them off by a wide margin, mainly because the Dragons failed to work the boards, but the following night in two overtime periods, the Kolpiennens scored a victory over the Collegians in the fastest game they've played to date.

Last Friday night, Falcione fell before the locals to even the Blue and White books.

The Sheffield history recalls a double win over Sagerstown and Kinzua in a twin bill opener, then a lopsided triumph over James City back on Dec. 12. Friday night, after three weeks of no other action than they received in rehearsals, the Massmen fell before Harry Stockdale's unbeaten Youngville Eagles by a one-point margin in their hardest game so far.

Tomorrow night's game here, therefore, remains a toss up, and fans may take their choice. Warren will have the height, but Sheffield seems to have the better defense, and it will be purely a case of accuracy on the shots according to the dopesters.

Smith, Nelson, Wright, Urbanek and Lunkvist are expected to start in their usual positions for Warren while Coach Massa probably will open with Campasino and Gustafson at forwards, Yuskat at center, and Otto and Stefan at the guards.

Elsewhere in the league, opening games will pit Kane's Wolves against the Flying Dutchmen of St. Marys, Emporium will invade Emporium, and Bradford's Mighty Owls will journey to Ridgway.

The experts see little trouble in the opener for Bradford, and St. Marys and Emporium seem to be getting the better support in the other two contests from writers in that area and those who have seen the respective contestants who will engage in those battles.

The Sheffield and Warren second teams will battle in a preliminary contest at 7:30 o'clock tomorrow evening, with the main attraction set for about nine.

An official report of the recapitulation of Borovsk, 50 miles southwest of Moscow, appeared to put the Russians in position to drive for the encirclement or force speedy withdrawal of German advance forces in Mozhaisk, fifty-seven miles west of Moscow.

Russian dispatches also said the Germans already might have been driven beyond their intended winter lines at one point in the south. They said that Nazis, despite tank support, also failed to dislodge the Soviets from Feodosiya, where a Crimean peninsula drive is headed toward relief of besieged Sevastopol.

### WHO HE IS

NOBUO FURUYUE, 23-year-old American citizen was born in the United States of Japanese parents.

At the outbreak of war with Japan he immediately volunteered for service in the U. S. Army, "for any sort of duty."

Throughout the nation many other second-generation Japanese-Americans were making similar decisions.

Furuyue was born on a produce farm near Lafayette, Colo., attended grade and high school there and in his senior year was sent to Japan by his parents so that he might become familiar with conditions and problems there. He attended Japanese missionary school for two years.

Then came the war with China. He decided Japan was the aggressor and returned to America.

"I want to get in a good hard crack at the Japanese militarists, not only to help this country but also to help the Japanese people. My father, who was born in the old country but has lived in this nation 38 years, feels the same way I do about it. So do my brothers and sisters."

### Losses Of Japs In Philippines Reported Heavy

(From Page One)

The Japanese simultaneously claimed a broadening of their invasion of Borneo with occupation of Brunel, between Sarawak and British North Borneo, already pierced by widely spaced landings. The Japanese said also that the strategic island of Labuan, off British North Borneo, had been in their hands since Jan. 1.

Whether the Japanese meant that both the city and Sultanate of Brunel had been overrun was not clear but control of the city would amount to control of the surrounding area.

The British admitted the Japanese swept across the Perak river in Malaya some 280 miles north of Singapore. They also effected a landing at the North Borneo port of Weston, 170 miles north of their first Borneo foothold, obtained in Sarawak.

Chungking dispatches reported a serious Japanese defeat ending in retreat from the Hunan province capital of Changsha, where 20,000 Japanese were said to have been trapped and slain by Chinese. This brought Chinese claims of Japanese casualties to 52,000 in three days. The Japanese claimed complete occupation of Changsha.

A man of our world would be able to leap to a height of 1000 feet if he could live on Mars.

## PROMOTED at Metzger-Wright's

Miss Clara Weidert, who is promoted to Merchandise Manager of the Apparel Floor at the Metzger-Wright Co.

Mrs. Mary Foley, who leaves position in Toilet Goods Department to become Miss Weidert's assistant.

Important New Year promotions at the Metzger-Wright Co. were announced Monday morning by W. H. Wright, vice president and general manager of this firm.

Miss Clara Weidert, who has been buyer of ready-to-wear for a number of years, has been named merchandise manager of the apparel floor, and will have complete charge of all merchandise activities in this section of the store.

Mrs. Mary Foley, who has made an outstanding record in the toilet goods department, has been advanced to the position of assistant to Miss Weidert.

To take the place made vacant by Mrs. Foley's promotion, Miss Julia Falbriski has been promoted from the jewelry to the toilet goods department.

Miss Weidert has been a Metzger-Wright coworker for many years. She joined the staff of the store when the firm was known as C. E. Metzger Co., Ltd. She was first employed in the gloves, notions and accessories departments under the management of Mr. Harry Broadbent. Later she went to the corset department. She also worked at other times in the men's furnishings and lingerie departments. Later she went to the ready-to-wear department under W. W. Wright. She then became Mr. Wright's assistant and, at his death in 1935, she became buyer

of the ready-to-wear departments. Mrs. Mary Foley attended Warren public schools and graduated from Warren High school. She then attended Hott Business College. Prior to her marriage she was associated with the ready-to-wear department in 1926 and 1927. She returned to the Metzger-Wright Co. in 1935. She was identified with the notions department and later transferred to the toilet goods section, in each of which she made an excellent record.

Miss Julia Falbriski came to Metzger-Wright's on Oct. 22, 1934. She was first associated with the candy department and later transferred to the jewelry section. She is a resident of Clarendon and attended Clarendon grade and high schools. She brings to her new position a wealth of experience and a pleasing personality.

The promotions are part of a general plan of expansion for the ready-to-wear departments. Mr. Wright said in making the announcement this morning. The plan includes large expansion of all apparel sections including dresses, coats, suits, and sportswear. Much larger selections and a greater variety of types of merchandise will be carried. The store will soon announce a promotional program in connection with the new plans.

## RED CROSS IS STRIVING FOR \$20,000 GOAL

The leveling off period following the holiday rush is expected to be mirrored in the "War Relief Fund of the American Red Cross."

Warren county Red Cross officials are anticipating a great increase in the number of daily contributions, now that Christmas is over and the new year started for it is realized that the necessity for raising an additional fund became apparent at an inopportune time. Many organizations will soon be holding their annual meetings and their first get-togethers since the appeal was made, and their usual generous contributions will undoubtedly be forthcoming.

A great many individuals indicated that additional donations might be expected from them after the first of the year, and a large number of those who have not yet given will undoubtedly do so from their Christmas checks and bonus payments.

While Warren county's record is a fine one and there is no doubt that the quota of \$20,000 will be reached, and perhaps surpassed, it is essential that contributions be made as quickly as possible, for the Red Cross is daily drawing on its stores of dressings, clothing and food to be shipped to the war

areas and these supplies must be replenished before another theatre of war is opened or the areas now affected are broadened.

George E. Cowden, chairman of the Warren county War Relief Fund today issued another reminder to those who have not yet contributed urging they mail their donations this week if possible, or leave them in the depositories provided in the county communities. Contributions may also be brought directly to the headquarters on Market street.

## LIONS TO HAVE OBSERVANCE OF "VICTORY WEEK"

The local Lions Club is placing particular stress on preparations for the week, luncheon-meeting to take place tomorrow in the Y. W. C. A. activities building, since at that time Warren members will be observing "Victory Week."

The event is arranged in conjunction with the membership of 4,000 other Lions Clubs in the United States and will stress club cooperation with the civilian defense program.

Guests of the club for this session will be the Warren county chairman of civilian defense, Alton M. Gibson, Burgess R. W. Strider, Fire Chief Douglas Kriep and Police Chief George Hachin.

## YOU MEAN I'M SERVING UNCLE SAM NOW IN PROTECTING OUR WATER PIPES?

Yes, Mrs. Housewife—and you are also being thrifty.

You see, frozen plumbing and burst pipes require metal replacements now needed in National Defense. And with plumbing supplies limited your repair costs rise.

So save yourself extra expense by safeguarding your water pipes. Right away, stuff all cracks around basement openings... wrap exposed pipes... shut off and drain outside services.

And in freezing weather let water trickle all night from one faucet (a quart a minute is enough). Costs a few cents—but saves you dollars in damage.
